8th International Conference on Soft Computing and its Engineering Applications (icSoftComp2026)

December 08-10, 2026

Marina Bay Sands, Singapore

Presentation Guidelines:

- Presenters will have a 10-minute time slot for paper presentation.
- Please prepare a PowerPoint presentation that lasts for up to 7-8 minutes' maximum to allow 2-3 minutes for discussion after your presentation. This equates to roughly 8 to 9 slides, excluding your title and acknowledgement slides. We will give you a warning at 7 minutes, so you have a minute to wrap up.
- In case foreign authors/delegates are not able to present their paper live due to extreme time differences, they can submit the pre-recorded presentation videos to the program chair through Google Forms. This does NOT apply to the authors from India and Singapore.
- The link for submission of pre-recorded video presentation and presentation files (pptx/pdf) is https://forms.gle/DRw8pR1W1DCjs9go9
- Please create a video of 720p or higher resolution in mp4 format of up to 1GB file size.
- We recommend completing this process in advance by November 15, 2026.
- We will use Microsoft Teams as the platform for the online presentation.
- Acceptable formats: PPTX (Microsoft PowerPoint 2010) or PDF
  - You may use any light theme, although we recommend dark text on a light background
  - Be sure to provide your paper ID, name and affiliation on the title slide
  - Make sure to number your slides
  - Please label your file with the paper ID.
  - Please paste the Springer logo and the symbol of icSoftComp2026 in the header section of your presentation.
